SEEDING UNIT with brush

Danmatic's Seeding Unit with brush is a complete Stand Alone Unit for decoration. It is specially designed for gentle handling of toppings such as: Sesame, poppy seeds, pumpkin seeds and more.

The seeding hopper is a separate unit and can easily be replaced when changing toppings on the line. A flex-coupling on the back-side will ensure a quick exchange of the hopper without the use of tools. Changing the hopper takes less than a minute.

The optional vacuum conveyor can be used to automatically refill the seeding hopper.

The Seeder is available with different types of brushes and screens depending on which type of seeds/toppings is used

SEEDING UNIT WITH BRUSH
