

SEEDER D300-1300

SEEDER D300-1300

SEEDER AND FLOUR DUSTER D300-1300

Is specially designed for gentle handling of toppings.

The seeding hopper is a separate unit, and can easily be replaced when changing topping. A Flex-coupling on the back side will ensure a quick replacement of the hopper without the use of tools. Change over time is less than one minute.

BENEFITS

- Useable for most types of toppings
- Very gentle handling of the toppings
- Adjustable seeding width
- Quick replacement of the seeding hopper
- Quick disassembly without the use of tools

OPTIONS

- Extra seeding hoppers
- Different screens are available depending on the type of topping
- Different types of brushes available depending on the type of topping
- When using toppings that may clog up, an agitator can be fitted in the hopper
- Automatic product detection; only topping, when needed
- Automatic refilling system of topping (vacuum conveyor)
- Mobile storage trolley for extra seeding hoppers
- Mobile transfer trolley for one seeding hopper for Seeder D700 and wider

TECHNICAL DATA

- Available in seeding widths from 300 to 1300 mm
- Delivered on a frame that is easily fitted to the rims on the existing conveyor
- Manufactured in stainless steel and food approved materials
