

STREWER D1500-3000

STREWER D1500-3000

STREWER D1500-3000

Is specially designed for gentle handling of toppings.

The strewing hopper is a separate unit, and can easily be replaced when changing topping. A Flex-coupling on the back side will ensure a quick replacement of the hopper without the use of tools.

BENEFITS

- Useable for most types of toppings
- Very gentle handling of the toppings
- Adjustable strewing width
- Quick replacement of the strewing hopper
- Quick disassembly without the use of tools

OPTIONS

- Extra strewing hoppers
- Different screens are available depending on the type of topping
- When using toppings that may clog up, an agitator can be fitted in the hopper
- Automatic product detection; only topping, when needed
- Mobile trolley for the strewer

TECHNICAL DATA

- Available in strewing widths from 1500 to 3000 mm
- Delivered on a frame that is easily fitted to the rims on the existing conveyor
- Manufactured in stainless steel and food approved materials
